Moscow Domestic Service in Russian 0800 GMT 21 October 1965--L

(Text) U.S. Senator Stephen Young has accused CIA of perpetrating atrocities against the civilian population of South Vietnam. He stated that CIA agents dressed in liberation forces uniforms kill men and women in order to discredit the national liberation movement. The senator told newsmen that he had learned of these facts from a CIA official, whom he refused to name, during his recent visit to South Vietnam.
